

SOC 2 Scoping Questionnaire

Completed response — ElectroCom Innovations LLC

Prepared for: Apprise Cyber (Pvt) Ltd · Date: 2 September 2026 · Version 1.0

1. Organization Information

#	Question	Response
1	Legal name of the organization	ElectroCom Innovations LLC
2	Primary contact name, role, email, and phone number	Arslan Noor, Chief Technology Officer arslan@electrocomit.com 0321 5412920 Technical point of contact for the engagement: Bilal Arshad, Senior DevOps Engineer
3	Country and primary business location	United States 2750 S Preston Rd, Ste 1167, Celina, TX 75009
4	Total number of employees	5
5	Number of IT / engineering staff	3

2. Services & Business Operations

#	Question	Response
1	Brief description of the services provided to customers	Custom software development (Next.js / React applications and SaaS platforms), AI and ML engineering (LLM integration, RAG pipelines, computer vision), managed IT and DevOps, staff augmentation, and IT consulting.
2	Which services should be included in the SOC 2 scope?	The software development and AI engineering service delivery environment only, meaning the systems, people and processes used to deliver client work. Individual client production environments are excluded from the boundary.
3	Type of organization (SaaS provider, Technology platform, MSP, Other)	Other. IT services firm delivering custom software and AI engineering. Not a SaaS product company.
4	Which customers require SOC 2 (enterprise, fintech, healthcare etc.)	Enterprise and healthcare clients in the United States.

3. SOC 2 Engagement Scope

#	Question	Response
1	Which SOC 2 report is required? (Type I / Type II / Not sure)	Type I

#	Question	Response
2	Which Trust Service Criteria should be included? (Security, Availability, Confidentiality, Processing Integrity, Privacy)	Security only (Common Criteria CC1 to CC9). Availability, Confidentiality, Processing Integrity and Privacy are explicitly out of scope.
3	What is your target timeline for SOC 2 certification?	4 to 6 weeks from signed engagement to report issuance.

4. Systems & Infrastructure

#	Question	Response
1	Cloud platforms used (AWS, Azure, GCP, On-premise, Hybrid)	AWS , single production environment.
2	List main systems or applications used to deliver services	AWS, GitHub, Google Workspace, Slack, and ticketing system.
3	Is a system architecture diagram available? (Yes/No)	No. To be produced during the engagement.
4	List third-party vendors supporting the platform	AWS, GitHub, Google Workspace, Slack, plus monitoring tooling.

5. Data & Security

#	Question	Response
1	Types of customer data processed (PII, Financial, Health, Confidential etc.)	Client business and project data, classified as confidential.
2	Is sensitive data encrypted in transit and at rest?	Yes.
3	Identity and Access Management platform used (Okta, Azure AD etc.)	Google Workspace
4	Is Multi-Factor Authentication (MFA) enabled?	Yes.

6. Governance & Risk Management

#	Question	Response
1	Do you have documented information security policies?	No. Starting from zero.
2	Do you maintain a formal risk management process?	No.
3	Is there a designated security or compliance lead?	Not yet appointed. To be formally designated at kickoff.

#	Question	Response
4	Do employees receive security awareness training?	No. Not yet run.

7. Operations & Control Environment

#	Question	Response
1	Is there a change management process for system updates?	Yes. System updates are scheduled and released in line with our build release cycle on defined release days.
2	Are system logs monitored for security events?	Yes.
3	Do you maintain an incident response plan?	No.
4	Do you have a business continuity or disaster recovery plan?	No.
5	Are backups performed regularly?	Yes, AWS-managed. Restore testing has not yet been performed.

8. Compliance & Audit Readiness

#	Question	Response
1	Previous certifications or audits (ISO 27001, PCI DSS, SOC 2 etc.)	None.
2	Do you maintain documentation and evidence for security controls?	No.
3	What is the expected timeline to begin the SOC 2 project?	Immediately on signed engagement letter and confirmed scope.

Note: ElectroCom Innovations LLC is the entity being audited. The healthcare customer requesting the report is outside the audit boundary and is not a party to this engagement. Responses reflect the current position of an organization beginning its compliance programme from zero; controls answered “Yes” will be evidenced system by system during the gap assessment.
