

SAM.gov Entity Registration — Prep Packet

Entity: ElectroCom Innovations LLC · **Goal:** Complete full registration (eligible to bid on US federal awards) **Owner:** Faizan (BD) · **Reviewer:** Arslan / Zulfiqar Last updated: 2026-07-01

This packet records the confirmed entity status, flags the data we still need, recommends NAICS codes, and gives the exact step-by-step for the live SAM.gov flow. SAM.gov requires a personal **Login.gov** sign-in and on-site entry of sensitive fields (EIN, bank/EFT) — those can't be filled in advance, only prepared.

★ STATUS — UPDATED 2026-07-03 (live Workspace check)

The old Work-In-Progress registration has been **PURGED**. Live Workspace counts now show **1 ID Assigned, 0 Work in Progress, 0 Submitted, 0 Active** — SAM dropped the ~90%-complete registration Arslan built Jul 14 2025 (it sat unfinished too long). We now hold **UEI only** and must **start the full registration fresh** on the existing UEI. We have all the data (below) from the Aug-2025 export + IRS CP-575, so re-entry is fast. **Bank routing/account #s were masked in the export → need the actual JPMorgan Chase numbers to re-enter.** Login.gov account is under Arslan Noor (admin). The earlier "continue the WIP" plan is void — see Step 0.5 (now: register fresh).

The blockers/errors below still apply to the NEW registration — get them right this time.

🚩 Likely activation blockers (to fix in the WIP registration)

1. **TIN Consent Date is BLANK** — consent signed by Arslan but never dated/finalized → IRS TIN match can't complete. (Blocker #1.)

- 2. **Required questions "Not Selected"** — several in Executive Compensation + Proceedings Questions must be answered.
- 3. **CAGE Code blank** — auto-assigned by DLA only after a clean resubmission.

Data errors to correct before resubmitting

- **"Small Business Joint Venture"** under Socio-Economic Types is **WRONG** (single-member LLC, not a JV) → remove.
- **Entity Structure = "Corporate Entity"** — verify this is intended for a single-member (disregarded) LLC.
- **Size = 3 employees / \$24,000 receipts** — fine for small-biz status, but confirm it's the intended figure (conflicts with "11+ team" brand number).

Time-sensitive

Record shows **Expiration Date Jul 14, 2026 (~11 days out)** — finish this WEEK before it lapses/purges.

Confirmed record facts (from EIN letter + entity export)

Field	Confirmed value
Legal name	ElectroCom Innovations LLC (NOT "ElectroCom IT" — that's the brand)
UEI	P5Y6JWM2JA53
SAM status	"Work In Progress" — ~90% filled (Jul 14 2025), never activated → can't bid yet
Structure	LLC (single-member; Zulfiqar sole member)
State of formation	TX
LLC formation date	05/20/2024 (Entity Start Date)

Field	Confirmed value
Legal/registered address	1212 Horsemint Dr, Little Elm, TX 75068-4679 (registered + mailing; this is the official one to use)
Registered Agent	Zulfiqar Saeed
Federal EIN	Confirmed on IRS CP-575 (03-10-2025); IRS taxpayer name "ELECTROCOM INNOVATIONS", name control ELEC. (Number kept out of repo — already entered in SAM.)
CAGE Code	(blank — not yet assigned; assigned after clean resubmission)
Banking / EFT	JPMorgan Chase, Checking — already entered in SAM
NAICS	Primary 541511 ; also 518210, 541512, 541513, 541519, 541618
POCs	Zulfiqar Saeed (CEO) on all roles
Size on file	3 employees / \$24,000 annual receipts (verify)
TX SOS File Number	0805545860
TX Taxpayer Number	32095048321 (<i>state number — NOT the federal EIN</i>)
TX status	ACTIVE (right to transact business)
UEI assigned	Jul 4, 2025 · Submitted Jul 14, 2025 · Activation (blank) · Expires Jul 14, 2026
Login.gov account	electrocom.it.innovations@gmail.com  (found 2026-07-03 — access confirmed)

 **Address resolved (2026-07-01, TX SOS record):** Little Elm is the official registered/formation address — use it on SAM. Celina is just the operational/brand HQ.  **Internal-notes correction:** CLAUDE.md says "SAM.gov registered." That's misleading — we only have a UEI, not an active registration. Update once registration goes Active.  **EIN ≠ TX Taxpayer Number:** SAM's TIN match needs the 9-digit **federal EIN** (IRS CP-575), not the 11-digit Texas taxpayer number 32095048321.

STEP 0 — Account access — RESOLVED

Login.gov account **electrocom.it.innovations@gmail.com** (access confirmed 2026-07-03). The registration is a **Work In Progress** owned by this account — Arslan Noor is the last editor, Zulfiqar is Entity Admin / registered agent. No admin-role request needed.

STEP 0.5 — Start the registration fresh on the existing UEI (DO THIS NOW)

Log in → **Workspace** → **Entities** → **See All** → **ELECTROCOM INNOVATIONS LLC** → **"Register Entity" / "Get Started"** (or "Renew or Update" if that's the only action shown) → purpose **"All Awards."** Re-enter the data from the Status table. Same 4 sections (Core Data → Assertions → Reps & Certs → POCs). Get these right this time:

- ☐ **TIN consent** — complete + date it (currently blank → blocks IRS match)
- ☐ **Executive Compensation** questions — answer the "Not Selected" ones
- ☐ **Proceedings Questions** — answer the "Not Selected" ones
- ☐ **Remove "Small Business Joint Venture"** from Socio-Economic Types (wrong — not a JV)
- ☐ **Verify Entity Structure** ("Corporate Entity" vs single-member disregarded LLC)
- ☐ **Confirm size** (3 employees / \$24,000 receipts) is intended
- ☐ **Submit** → IRS TIN match (1–2 business days) → CAGE assignment → **Active**

Address — RESOLVED: use the official registered address **1212 Horsemint Dr, Little Elm, TX 75068-4679** (per TX SOS record). Celina is only the brand/operational HQ.

STEP 1 — Data we ALREADY have

Field	Value
Legal name	ElectroCom Innovations LLC
UEI	P5Y6JWM2JA53

Field	Value
Entity structure	LLC
State	TX
Brand / website	ElectroCom IT · electrocomit.com
Employee count	11+
Founded (operating history)	1998 (telecom roots → full IT services)
Primary business	IT solutions / software / AI-ML engineering

STEP 2 — Data we still NEED to COMPLETE registration ⚠️ (fill these in)

Legal name, UEI, structure and state are now confirmed (see Status box). The fields below come from the LLC's formation docs + IRS records. **The legal name "ElectroCom Innovations LLC" must match the IRS EIN letter EXACTLY** or the TIN match fails.

Resolved via the TX SOS record (2026-07-01): formation date **05/20/2024**, registered address **1212 Horsemint Dr, Little Elm, TX 75068-4679**, registered agent **Zulfiqar Saeed**. Remaining:

Field	Why it's needed	Value (FILL IN)
Login.gov account holder	Whoever created the UEI Jul 4 2025 — likely Zulfiqar (registered agent). Check his email first	_____
Federal EIN (9-digit)	IRS taxpayer ID — must match "ElectroCom Innovations LLC". NOT the TX taxpayer #. <i>Sensitive — on-site only.</i>	_____
Name exactly as on IRS records	For the IRS TIN match step	_____
Bank routing + account #	For EFT (how the govt pays you). <i>Sensitive — on-site only.</i>	_____

Field	Why it's needed	Value (FILL IN)
Prior-year annual revenue	For small-business size determination	_____
DBA (if any)	e.g. "ElectroCom IT" as a doing-business-as name	_____

STEP 3 — Points of Contact (POCs)

SAM.gov requires named POCs. Recommended mapping (confirm with team):

Role	Suggested person	Email
Entity Administrator	Faizan or Arslan (whoever owns the Login.gov account)	_____
Electronic Business POC	Arslan Noor (CTO)	arslan@electrocomit.com
Government Business POC	Zulfiqar Saeed (CEO)	_____
Past Performance POC	Arslan Noor	arslan@electrocomit.com

Consider routing the govt-business POC to **partnerships@electrocomit.com** once that alias is live, so federal correspondence is tracked separately from commercial BD.

STEP 4 — Recommended NAICS codes

NAICS = the industry classifications that determine which solicitations match us and whether we qualify as a small business. **Pick ONE primary + several secondary.** For a software/AI/IT shop with 11 staff, we comfortably qualify as a **small business** under all of these (their size standards run 19M–34M in revenue — well above us), which unlocks small-business set-asides.

Primary (recommended):

- **541511 — Custom Computer Programming Services** → web/full-stack/SaaS dev. Best fit for our core. (*Size std: \$34M*)

Secondary:

- **541512 — Computer Systems Design Services** → architecture, systems integration, AI systems
- **541519 — Other Computer Related Services** → catch-all incl. staff augmentation/IT services
- **518210 — Computing Infrastructure Providers, Data Processing, Web Hosting** → managed IT, cloud, DevOps
- **541611 — Administrative & General Management Consulting** → strategic IT consulting / digital transformation
- **541715 — R&D in Physical, Engineering & Life Sciences** → optional, for AI/ML research framing
- **561320 — Temporary Help Services** → optional, if pitching staff augmentation to govt teams

Map to our 5 service pillars: Web Dev → 541511 · AI/ML → 541512/541715 · Managed IT → 518210 · Consulting → 541611 · Staff Aug → 541519/561320.

STEP 5 — Reps & Certifications (heads-up)

Full registration ends with the FAR/DFARS reps & certs — a long yes/no questionnaire (business types, small-business status, ownership, no debarments, etc.). Nothing to prepare in advance, but budget ~30–45 min. Answer honestly; small-business and any minority/disadvantaged-owned status here drive set-aside eligibility.

STEP 6 — The live flow (order of operations)

1. **Create/sign in to Login.gov** (personal account for the person registering).

2. sam.gov → **Get Started** → **Register Entity** → choose "**Bid on contracts / apply for awards.**"
 3. Enter **entity details** (legal name, address, start date, structure) → SAM validates against public records → assigns a **Unique Entity ID (UEI)**.
 4. **IRS TIN match** (EIN + IRS name) — can take 1–2 business days.
 5. **CAGE code** assigned automatically for US entities.
 6. Enter **banking/EFT** details.
 7. Add **POCs** (Step 3).
 8. Complete **Reps & Certs** (Step 5).
 9. Submit → **up to 10 business days to go Active.**
-

STEP 7 — Free help available

- **APEX Accelerators** (formerly PTACs) — free, government-funded help completing SAM.gov registration. Find the local TX office; worth using for the first registration.
 - **Federal Service Desk** — fsd.gov, live chat/phone Mon–Fri 8am–8pm ET, for technical issues.
-

Outstanding actions

- ☒ Run entity-status check → FOUND: ElectroCom Innovations LLC, UEI P5Y6JWM2JA53
- ☒ Confirm it's our company → YES (team confirmed)
- ☒ Identify Login.gov account → electrocom.it.innovations@gmail.com (access confirmed)
- ☒ Reconcile address → Little Elm 75068-4679 (official registered address)
- ☒ EIN, banking, POCs, NAICS → already entered by Arslan Jul 14 2025
- ☐ **Complete + date the TIN consent** (blank → blocks IRS match) ← blocker #1
- ☐ **Answer all "Not Selected" Exec-Comp + Proceedings questions**
- ☐ **Remove "Small Business Joint Venture"** socio-economic type (wrong)
- ☐ Verify entity structure ("Corporate Entity" vs single-member LLC) + size (3 emp / \$24k)
- ☐ **Resubmit** → IRS TIN match (1–2 days) → CAGE assigned → **Active** (before Jul 14 2026)

- ☐ Once Active: correct the "SAM.gov registered" line in CLAUDE.md
